

BARKAT MASIH FAMILY

Multi-Family of 15

Barkat Masih is now 72 years old and is head of this family. He and his family have been in prison BEFORE India and Pakistan separated back in 1947. His daughter and grandson live with him and his wife. One of Barkat's sons died in prison from liver disease because they could not afford treatment. They are second and third generation slaves. His prayer is that one day he would be free, but more so his children and grandchildren. With so many daughters growing of age, it is of great concern due to the depravity of brick masters. As a unit they work making bricks 6 days a week.
