

## HAKIM MASIH FAMILY

Multi-Family of 20

**Hakim Masih is the head of this family and is 78 years old. He has three sons.**

One of his daughter-in-laws is suffering with tuberculosis. She has lost around 66 lbs. in the last 5 months and now she is down to 57 lbs. This is why we must move quickly. We need to get her medical attention.

They are the **fourth generation slaves**. It's been so long that no one knows how much was borrowed in the beginning.
