

Beulah's Story

2021 India VBS

No one dared to go into this area, there are wild elephants, bison, and leopards. Even knowing the risk and the time it will take to give Jesus to these people, Pr. Anand took the initiative to go to this village.

Pastor Anand led a young Hill Tribes girl named Beulah, to Christ back in 2012. She gave her life for the mission in 2014 during fasting and prayer. We helped her to study, but after she finished 10th grade, parents and villagers were against her studies and forced her to marry within family.

This village is very unique and till now they are suffering in all the levels, especially children. It has taken this much time just to deliver them from their basic ideologies.

These are the pictures from the tribal village. The girl who accepted Christ is serving the Lord here.

These people are very private and wouldn't speak to anyone. They are very much native to these hills, their parents didn't wear clothes at all and lived in caves. The first thing we did when we reached them was to give dresses to all of them... As soon as they heard our coordinator coming to the villages, they got excited and were waiting for their arrival. They are tribals of this forest. Just 10 years ago they were living in caves without clothes. They can climb straight up the rocks without any help. Till now, we are doing everything to help these people especially children with education.
